In Dr. David Applebaum's office, everything is about you. From the conversation about your goals to a check following surgery to make sure everything is healing perfect, the board-certified plastic surgeon makes it his mission to realize every patient's inner aspirations. Whether it is body contouring, breast enhancement, facial rejuvenation or reflation (the art of replacing lost volume), "it's a matter of listening to the patient and understanding their needs, or making the patient feel as if they are the only one in the office." With most new patients coming from existing patient referrals, it's no surprise that Dr. Applebaum has been named Best Cosmetic Surgeon in Boca for a seventh year. "You need to understand what a patient's desires are, and what combination of procedures are necessary, to achieve those natural results."

"Once more the immense support from our local residents, which nominated Animal Hospital of Boca Raton as best veterinarian in Boca Raton, is received with much appreciation and delight. I would like to be able to take full credit for this achievement award. However, this honor really belongs to the dedicated medical teams that collaborate to formulate a personalized treatment plan for each patient. These teams consist of our diligent Doctors and Technicians, our attentive and informative front staff, as well as our passionate kennel technicians which take care of the day to day patient treatments while providing activity for the lucky pets that are brought in for 'Tender Loving Care' Boarding services. Although, it is also the attention to the needs of our patient's parents that undoubtedly makes our team stand out. Educating parents and involving them in the decision making of their pets' health is significant to us. My associates and I strive to make both our clients and our patients feel comfortable with any service provided. On behalf of myself and my hardworking staff members, we thank you for this honor and we hope to continue to achieve your expectations for exceptional care and service of your family's pets."

LOOK NATURALLY 10 YEARS YOUNGER WITH "YOU-LIFT"-90 MINUTE IN OFFICE PROCEDURE UNDER LOCAL ANESTHESIA

By Stacy Reed

One of the First things we do every day is look in the mirror. If you're over 40, you probably have been noticing some changes which are not consistent with how young you feel... It is the natural aging process that makes us look old and tired.

Fortunately with today's advances in surgery we can turn back time with a 90-minute office procedure. Imagine looking naturally 10 to 15 years younger in just 10 days and love what you see in the mirror.

Face-lifts of old, were a major surgical procedure, requiring you to be put under general anesthesia, hospital, stay long recovery period, and an unnatural result which others could see.

INTRODUCING THE yoU-Lift

New advances in surgery have reduced both the risks and unnatural results of the past. Now the yoU-Lift can be done safely, without general anesthesia, in the doctors' office. Dr. Mucci perfected this lift, after years of feedback from patients.

Dr. Mucci explains, "The objective of the yoU-Lift

You give us 90 minutes and we will give you 10-15 years

was to allow our patients to return to normal social activities within days. We have many

patients that sit down in front of their friends, days later, without them ever knowing they had work done. Incisions are placed out of sight so typically not visible to others. They would simply notice that you look naturally years younger, refreshed and rejuvenated.

ADVANCED TECHNOLOGY

The yoU-Lift co-developed by Dr. Mucci and Rodriguez, is a proprietary lift, which creates a better outcome, using advanced technology. He explains why the yoU-Lift is a leading edge solution. "After performing hundreds of face-lifts, we felt we could improve patient satisfaction, with the addition of today's other technologies. Through extensive research and testing, we decided to incorporate the use of the Ultherapy focused ultrasound device in my lift. This FDA approved device, is a perfect supplementation to improve the lift. In addition we recommend ultherapy as a procedure to maintain and prolong results of a previous facelift.

EXPERIENCE & RESULTS

Dr. Mucci and Dr. Rodriguez (located in our Plantation facility) have worked together for over five years performing the "Lifestyle Lift" as the lead surgeons for Lifestyle Lift, a corporate entity that had over 50 locations nationwide.

Each doctor has performed over two thousand facelifts during their tenure. Dr. Mucci has an outstanding reputation and patient satisfaction reviews on Realself (the most legitimate plastic surgeon review site on the internet).

The Broward location of Lifestyle Lift became one of the most successful locations nationwide once Dr. Mucci became the lead surgeon. Patient satisfaction rates increased dramatically with Dr. Mucci and Rodriguez as surgeons. His education is in facial reconstructive surgery and he has performed more facelifts over the past eight years than many physicians have done in a career. Now in private practice in Boca, you can rest assured your are in good hands.

OTHER POPULAR SERVICES

In addition to our signature procedure the

yoU-Lift we also offer

- Botox & fillers
- Upper & lower eyelid surgery
- Liposuction
